'Love is a Miracle'

Life is a journey. We often quote this phrase, but what does it mean for you? One of the most sacred parts of this journey is our relationship with self and concurrently, our relationship with others. It is often in our relationships with others that the darker side of the relationship we have with ourself comes to light. The Human Awareness Institute (HAI) is a safe place to explore, enhance and discover ways to communicate intimately and become more confident in your relationships and sexuality.

"Love is a Miracle+is a Love, Intimacy and Sexuality Workshop designed to show you how to fall more deeply in love with yourself and others, learn to trust, heal past hurt from relationships, discover how to fully and authentically share who you really are with others by allowing yourself to risk, and expand and grow beyond your normal limitations. Youd experience love, trust and relationships in a way youve never before thought possible. Even if you don't believe in miracles, come prepared to experience one.

We received these comments from participants at a recent Level 1 workshop:

I relished the delicious envelope of support and respect with zero judgement that embraced me and all other participants for the duration of the workshop and beyond. (MA)

L1 opened doors to my fears and beliefs about myself and set me on my journey to become, and love being, who I really am. (AH)

Reflections from Maureen and Rosie

Maureen Matthews, HAI Graduate and weekly columnist for the Sunday Age newspaper writes, "Love is not a destination. Do stop 'looking for love' but do not give up on it. Rather, be open to

the possibility of love."

Rosie Wilson shares her experience of being a SPACE committee member

My initial trepidation upon being elected as SPACE Committee Secretary in 2014, was short lived as the whole SPACE Committee rallied around in support. Among my responsibilities I collate and distribute the meeting minutes to our members. I also manage SPACE Association membership dues.

Most importantly, our committee meetings are run along HAI principles. Including personal shares, active listening, in heart space with each other, working together to create win-win situations for our community. We conclude each meeting with appreciations and hugs, and virtual hugs for those on Skype!

It's great to be a part of several new initiatives. These include sending out Christmas cards from the committee thanking everyone for their support. Offering our financial SPACE Members a \$50 discount once a year on any workshop they attend as a participant.

I am loving being on the Committee and how it has led to many close friendships with others in our community. My heartfelt thanks to all the members of the SPACE Committee, past and present.
